STUDENTS Policy 2100

Nondiscrimination and Student Rights

The Board of Education reaffirms its belief that every student regardless of race, color, sex, national origin, age, ethnicity, religion, disability, sexual orientation or perceived sexual orientation be given equal opportunity for educational development.

The Board recognizes the importance of providing each student with a school environment conducive to intellectual, emotional and social growth through participation in a full range of educational programs and activities. Board and staff commitments insure equal educational opportunities in course offerings, guidance and counseling, test procedures, extracurricular activities, discipline procedures and student support services.

STUDENTS Policy 2110

Nondiscrimination and Student Rights

Equal Educational Opportunity

It is the policy of the Board of Education to provide a free and appropriate education for students with disabilities. Students with disabilities are those who, because of certain atypical characteristics, have been identified by professionally qualified personnel as requiring special educational planning and services. Students with disabilities will be identified on the basis of physical, health, sensory, and/or emotional handicaps, behavioral problems or observable exceptions in mental ability. It is possible that a student may have more than one type of disability.

The District's programs and services available to meet the needs of these students will be in accordance with the Individuals with Disabilities Education Act, The Education for All Handicapped Students Act of 1975, The Rehabilitation Act of 1973, Section 504, and §162.670-.995 RSMo., Missouri Special Education Services. In addition, the identification of students with disabilities and the services provided by the District will be in accordance with the regulations and guidelines of the Missouri Department of Elementary and Secondary Education's Current Plan for Part B of The Education of the Handicapped Act, as amended. (See Policy and Regulation 6250 – Instruction for Students with Disabilities.)

STUDENTS Policy 2120

Nondiscrimination and Student Rights

Students of Legal Age

Upon attainment of the age of eighteen (18), students will be deemed to be adults for purposes of educational records, placement and reporting.
STUDENTS

Non-discrimination and Student Rights
Marital, Parental Status of Students

Students who are married, pregnant or who have given birth will be treated in a like manner as other students with respect to academic matters, student activities as well as other educational benefits provided by the District.

STUDENTS

Non-discrimination and Student Rights
Searches by School Personnel

School lockers and desks are the property of the Board of Education and are provided for the convenience of students, and as such, are subject to periodic inspection without notice, without student consent, and without a search warrant. The lockers and desks may be searched by school administrators or staff who have a reasonable suspicion that the lockers or desks contain drugs, alcohol, material of a disruptive nature, stolen properties, weapons, items posing a danger to the health or safety of students and school employees, or evidence of a violation of school policy. In addition, the Board of Education authorizes the use of trained dogs to sniff lockers or other school property to assist in the detection of the presence of drugs, explosives, and other contraband.

Students or student property may be searched based on reasonable suspicion of a violation of District rules, policy or state law. Reasonable suspicion must be based on facts known to the administration, credible information provided or reasonable inference drawn from such facts or information. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses, if such witnesses are available. Students may be asked to empty pockets, remove jackets, coats, shoes and other articles of exterior clothing for examination if reasonable under the circumstances.

No employee shall perform a strip search of any student. The exception to this would be if a school administrator reasonably believes that a student possesses a weapon, explosive, or substance that poses an imminent threat of physical harm to himself or herself or another person, and if a commissioned law enforcement officer is not immediately available. Strip searches may be conducted by, or under the authority of, a commissioned law enforcement officer.

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains the authority to conduct routine patrols of the student parking lots. The interior of a student’s automobile on school premises may be searched if a school administrator has reasonable suspicion to believe that illegal, unauthorized or contraband items, or evidence of a violation of school policy is contained inside the vehicle.

Law enforcement officials shall be contacted if the search produces a controlled substance, drug paraphernalia, weapons, stolen goods or evidence of a crime, in any case involving a violation of law when a student refuses to allow a search, or where the search cannot safely be conducted. Parents may also be contacted. A student who refuses to submit to a search may be appropriately disciplined by school officials.
STUDENTS

Non-discrimination and Student Rights

Interviews, Interrogations and Removal from School

Interview or Interrogation

The School District has legal jurisdiction over students during the school day and hours of approved extracurricular activities. The school administration is responsible for making an effort to protect each student's rights with respect to interrogations by law enforcement officials. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school principal or designee will be present and the interview will be conducted in private.

The principal will verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school. The principal ordinarily will make reasonable efforts to notify the student's parents/guardians.

Removal of Students from School

Before a student at school is arrested or taken into custody by a law enforcement or other legally authorized person, the principal will verify the official's authority to take custody of the student. The school principal will attempt to notify the student's parent/guardian that the student is being removed from school.

STUDENTS

Nondiscrimination and Student Rights

Pledge of Allegiance

Schools shall ensure that the Pledge of Allegiance is recited at least once per school day. No student shall be required to recite the Pledge of Allegiance.

*****

August 2016, Copyright © 2016 Missouri Consultants for Education
STUDENTS  

Admission and Withdrawal

The admission and denial of admission of all students shall be under the direction of the Superintendent/Designee, subject to the approval of the Board of Education. All persons seeking admission to the District and its instructional programs must satisfactorily meet all residency, academic, age, immunization, health, safety and other eligibility prerequisites as established by Board policies, rules and regulations, and by law. Students entering the District will be required to present a birth certificate or some other acceptable proof of age along with proof of residency in the District, or a request for a waiver of the residency requirements unless the student is exempt from the residency requirements as set forth in District policies, rules and regulations and/or law.

Upon a request to enroll any student in the District, the Superintendent/Designee will request the student’s previous school records along with any other relevant records as set forth in Regulation 2200 and state law. Any enrollment of a student prior to receipt of the student’s previous discipline records will remain conditional until receipt of such records. A student will be allowed to attend school during conditional enrollment so long as the student does not violate the District’s code of conduct or pose a threat of harm to students or employees of the District. (See Regulation 2200, Policy 2290, and Policy and Regulation 2664).

Students who are entering kindergarten or first grade are encouraged to pre-register in the spring prior to the fall semester in which they are to begin attendance.

High School Students Residing in K-8 Districts

The District will admit high school students from approved K-8 Districts in its county or adjoining counties. The District shall charge the sending K-8 Districts tuition for each such student. The cost of tuition will be calculated by the District’s Board of Education, but in no case will tuition exceed the amount spent for teachers’ wages, incidental purposes, debt service, maintenance and replacements divided by the District’s average daily pupil attendance. Disputes involving the tuition charged will be resolved by the State Board of Education. The sending districts are required to provide transportation provided the receiving District has been approved by the K-8 District of pupil’s residence.

*****

August 2019, Copyright © 2019 Missouri Consultants for Education, LLC
STUDENTS Policy 2210

Admission and Withdrawal

Entrance Age

Entrance Age for Kindergarten

To be admitted to kindergarten or to summer school prior to the student's regular term, a student must be five (5) years old before August 1st preceding entrance.

Entrance Age for First Grade

To be admitted to first grade a student must be six (6) years old before August 1st preceding entrance. However, students who have completed an accredited kindergarten program will be considered for enrollment in the first grade regardless of the August 1st cut-off date.

A birth certificate will be required as proof of age.

Military Dependents

Military dependents who have completed an accredited pre-kindergarten or kindergarten program in another state may enter kindergarten or first grade regardless of age. The District will facilitate the timely enrollment of children of military families and will ensure that they are not placed at a disadvantage due to difficulty in their transfer of education records from the previous school district(s) or variations in entrance legal requirements.

STUDENTS Policy 2220

Admission and Withdrawal

Compulsory Attendance Ages

The Board of Education shall abide by the compulsory attendance laws of the state by requiring District resident students between the ages of seven and either seventeen years or successful completion of sixteen credits toward high school graduation, to attend school full time, with the exception of those students who may be excused from full-time attendance by the Superintendent. Individual petitions for any deviation from full-time attendance shall be considered by the Superintendent on the merits of the individual student's application and in compliance with state law and regulations. For purposes of this Policy, a completed credit toward high school graduation is defined as one hundred hours of instruction or more in a course.

Any student age sixteen years or older who drops out of school for any reason other than to attend another school, college or university, or to enlist in the armed services, shall be reported to the state literacy hotline office by the School District.
STUDENTS

Admission and Withdrawal

Admission of Non-Tuition Students

Resident Students

Resident students of the District, five to twenty-one (5-21) years of age, who have not graduated from high school or received any document evidencing completion of the equivalent of a secondary curriculum (G.E.D.), and are not barred from enrollment by provisions of the Safe Schools Act (See Policy and Regulation 2664) may attend District schools tuition free. Resident students must provide proof of residency in the District at the time of enrollment. To be a resident of the District, a student must both physically reside and be domiciled within District boundaries. The domicile of a minor child is the domicile of a parent, military guardian pursuant to a military issued guardianship, or court-appointed legal guardian. Where due to military stationing or deployment out-of-state of one or both of a child’s parent(s), the child, a resident of Missouri, relocates to live with other family members that live in the District or lives in a military support community located in the District, the child may attend District schools. If the parents’ active duty orders expire during the school year, the student will be permitted to finish the current school year at the District.

In addition, the District will provide tuition-free special education services to resident students who qualify for special education services between the ages of 3 and 21 as required by law.

Students Entitled to Enroll Without Proof of Residency

The residency provisions of this policy are not applicable to homeless students, inter-District court-ordered desegregation students, wards of the state placed in residential care facilities, students placed in a residential care facility due to a mental illness or developmental disability, students placed in a residential facility by a juvenile court, students with a disability identified under state eligibility criteria if the student is in the district for reasons other than accessing the district’s educational program, students attending regional or cooperative alternative education programs, students attending an alternative education program on a contractual basis, or students attending a school pursuant to R.S.Mo.§ 167.151(2) or (4). The exemptions to the residency requirement are expressly established by state law and entitle such students to tuition-free school attendance. Additionally, a student may be partially exempt from the payment of tuition as set forth in Policy and Regulation 2240 and state law. For purposes of IDEA special education evaluation and provision of special education services a student attending a private school located within the District will be evaluated as a resident student.
Requests for Waiver of Proof of Residency Requirements

Those students who are unable to satisfy the proof of residency requirements and who are not entitled to enroll as provided in the previous section of this Policy and state law may request a waiver of the proof of residency requirements. Upon filing a Request for Waiver of Proof of Residency (Form 2230.1) and satisfaction of all other enrollment requirements, the student will be conditionally enrolled and allowed to attend school pending a Board of Education hearing on the student’s request unless there is reason to suspect that the admission of the pupil will create an immediate danger to the safety of other students or employees of the District. If there is reason to suspect that the student poses an immediate danger, the Superintendent/Designee may convene a hearing within five working days of the request to register and determine whether or not the pupil may register. (See Policy and Regulation 2200, Regulation 2230 and Policy and Regulation 2664).

Students of Nonresident Teachers and Regular Employees

Nonresident students of District teachers or regular District employees may be permitted to attend school without payment of tuition. Such students will be considered a "resident" student for purposes of state aid.

Remote Registration

Parent(s) who are being relocated to Missouri pursuant to military orders will be permitted to enroll their students remotely. Proof of residence is not required at the time of registration, but will be required within ten (10) days of the student’s registration.

****

August 2019, Copyright © 2019 Missouri Consultants for Education, LLC
STUDENTS

Admission and Withdrawal
Admission and Tuition - Nonresident Students

A nonresident student is defined as a student who does not meet the requirements to be a resident student of the School District. The local School Board, in its discretion, may permit nonresident students to attend school in the district, upon payment of tuition as established by the Board. Tuition rates shall be determined annually on the basis of the per-pupil cost for the preceding year for the operation, maintenance and debt service of the schools, as prescribed by state law.

Admission of Residents from Unaccredited School Districts

In accordance with Missouri law and Board Regulation, the District will accept transfer students from school districts in its same or adjoining counties that are declared unaccredited by the state of Missouri.

STUDENTS

Admission and Withdrawal
Transfer Students

All students entering the District from other educational settings are required to submit evidence of their achievement in the last grade attended. Grade placement of a student may be adjusted on the basis of examination of the student’s previous record, achievement tests administered, or other factors that the principal and staff believe are appropriate under the circumstances. A transcript of all entering secondary school students is required before enrollment can be completed. However, a student may be permitted to enroll temporarily until a full transcript is obtained.

Transfers from Unaccredited Schools

Parents/guardians should be advised that if they choose to transfer their student to the public school from an unaccredited school, the student will not be guaranteed comparable placement in the public schools. Students transferring will be assigned an appropriate grade level and class assignment based on their educational and developmental level as determined by the principal through assessment of student’s age, educational experience, achievement tests and consultation with parent/guardian and personnel from the student’s former school.
STUDENTS

Admission and Withdrawal
Disabled Students

The District will follow all state and federal laws, rules and regulations with regard to implementing its responsibilities to students who enroll in the District that have been previously identified as disabled under the Individuals with Disabilities Education Act, or Section 504 of the Rehabilitation Act.

STUDENTS

Admission and Withdrawal

Homeless Students

The Board of Education is committed to providing equal access for all eligible homeless students to a free, appropriate education in the same manner as is provided to other District students. In carrying out this commitment, the District will identify and assess the needs of the District's homeless students; provide for the placement of its homeless students in the school of best interest; provide access to the District's programs; and appoint a homeless liaison. The Superintendent will review all District policies to determine whether they act as barriers to the enrollment of homeless students. Special attention will be given to policies regarding transportation, immunization, residency, birth certificates, school records and guardianship.

*****

January 2018, Copyright © 2018 Missouri Consultants for Education, LLC
STUDENTS

Admission and Withdrawal

Migrant Students

The Board of Education is committed to the identification, needs assessment and enrollment of migrant students living within the District. The District's Coordinator of Programs for Homeless Students is also responsible for implementation and maintenance of the District's program for migrant students. (See also Policy 6274 – Instruction for Migrant Students.)

The Board of Education directs the administration to screen students, as required by law, to assist the state in identifying migratory children. If the District becomes aware of any student who might be a migrant student, the superintendent or designee will notify the state director of migrant education, as designated by the Department of Elementary and Secondary Education (DESE), so that the student may be formally recognized as a migrant student.

The administration will develop written administrative procedures for ensuring that migrant students, once identified, receive services for which they are eligible. In developing and implementing a program to address the needs of migratory children, the District will:

1. Screen students and assess the educational and related health and social needs of each student identified as migrant.

2. Provide a full range of services to migrant students, including applicable Title I programs, special education, gifted education, career or technical education, language programs, counseling programs, elective classes, fine arts classes, etc.

3. Provide migratory children with the opportunity to meet the same statewide assessment standards that all children are expected to meet.

4. To the extent feasible, provide advocacy and outreach programs to migratory children and their families and professional development for district staff.

5. Provide parents/guardians an opportunity for meaningful participation in the program.

******

January 2017 Copyright © 2017 Missouri Consultants for Education, LLC
STUDENTS

Admission and Withdrawal
Admission of Home Schooled Students

Students who enroll in the District from a home-schooled status must meet residency requirements as stipulated in Policy 2230.

Grade placement will be determined by an administrative evaluation of records from the home-school setting and assessment of student's age, total educational experience, achievement tests administered at the time of District registration, and consultation with parents/guardians.

High School Transfers from Unaccredited Schools

Students who transfer into the district from schools accredited by a state department of education, North Central Association, or its counterpart, will be accepted at the grade level accomplished at the time of transfer. Credits and grades earned in high school will be accepted.

Students transferring from non accredited schools or home instruction:

A. In order to preserve the rights of all students, credits and grades of transfer students earned from a non-accredited secondary school or home instruction (9-12) may be accepted and applied toward graduation requirements provided:

1. The instructor for the course was properly qualified and certified for the subject by a state certificating agency or by another appropriate certificating body.
2. The time spent in class instruction for the course was equivalent to the class time standards established by the Missouri Department of Elementary and Secondary Education for the same amount of credit.
3. The student has been enrolled in the Seymour R-II District for two (2) complete semesters and has demonstrated academic competence.

Credit transferred from non-accredited or home schooling accepted under “A” above will not be weighted.

B. Students from non-accredited or home schooling whose credits are not transferable under provision 1 and 2 above, may have their credits validated by the school transfer committee, which will consist of a high school principal, a counselor, and a teacher. The committee will decide if the credit is substantially equivalent to credit earned at Seymour High School based on the following as they may deem appropriate:

1. An evaluation of the educational experience received by the student (including but not limited to, academic preparation of the teacher, amount of time spent in instruction, instructional materials and resources, instructional goals and objectives and testing).
2. Successful performance in a higher class in the same subject area.

3. Passing a final examination for the course.

4. Performance on a standardized test for the subject at no more than two (2) grade levels below the grade equivalent.

5. Passing performance on an oral examination over the course content.

The intent of these criteria is to award transfer credit to the student if at all possible based on equivalency of educational experience. Cooperation of the student, parents or guardians, and the school originally granting credit will be necessary. Transfer credits from non-accredited or home study schooling granted under “B” will be accepted as passing with no grade attached.

C. A maximum of seven credits per year may be earned for transfer under “A” or “B” above. Courses not traditionally offered in accredited schools will be evaluated to determine if they are equivalent in content with accredited schools’ course offerings. Bible classes may be counted as elective credit. To be considered for class rank (valedictorian/salutatorian), the student who transfers credit under “A” or “B” above must have been enrolled in Seymour High School for at least four semesters. To graduate, the student must have been enrolled in Seymour High School for at least (3) consecutive semesters in which at least 8 credits have been earned prior to graduation. Students not meeting the above attendance guidelines for graduation may have the requirements waived based on the emergency nature of the transfer.

D. Students denied transfer credit may appeal to the Superintendent of Schools. If the Superintendent’s decision does not satisfy the person making the appeal then further appeal can be made to the Board of Education. All appeals must be made in writing.
STUDENTS

Policy 2290

Admission and Withdrawal
Student Withdrawal From School

Students who withdraw from school for any reason are required to notify the building principal and provide a specific reason for withdrawal.

Each building principal will submit a monthly report to the Superintendent concerning the identity and reason of each student withdrawing from school.

Building principals will respond within five (5) business days to requests by other schools for the records of students transferring from District schools. Records transferred pursuant to such requests will include the written notification of criminal charges/adjudications by law enforcement officials for criminal acts listed in Policy 2673.

Policy 2310
(Regulation 2310)

Attendance
Student Attendance

The Board of Education believes that regular attendance is essential to achieving success in school. Education is a total process based upon continual communication and shared responsibilities among parents, students, teachers and school. As students mature and progress through the educational system, they should increasingly assume responsibility for regular attendance. However, parents have a legal and moral responsibility to require regular attendance at school.
STUDENTS (Policy 2320)  
(Regulation 2320)  
Attendance  
Part-Time Attendance  

Students may attend District schools on a part-time basis as provided by state law and regulations of the Board of Education.

STUDENTS (Policy 2330)  
(Regulation 2330)  
Attendance  
Student Early Dismissal Precautions  

Students are to be released from school during school hours only with permission of the building principal/designee.

Early dismissal of a student may be approved only by the principal/designee. Normally requests for early dismissal must be in writing, signed and dated by a parent/guardian.

STUDENTS (Policy 2340)  
(Regulation 2340)  
Attendance  
Truancy  

The Board of Education believes regular attendance is important to academic success. Therefore, the Board directs that problems with attendance on the part of any student be investigated and acted upon promptly.

Truancy is defined as deliberate absence from school on the part of the pupil with or without the knowledge of the parent/guardian and for which no justifiable excuse is given. When a pattern of truancy becomes evident, the principal will investigate and take such action as circumstances dictate.

Section 210.115 R.S.Mo. mandates reporting to the Division of Family Services when there is reasonable cause to suspect that a student's non-attendance is due to the educational neglect of the parents/guardians.

Any school official or employee who knows or has reasonable cause to suspect that a student is being subjected to home conditions or circumstances which would reasonably result in truancy will immediately report or cause a report to be made to the building principal, or his/her designee, who will then become responsible for making a report via the Student Abuse Hotline (800-392-3738) to the Missouri Division of Family Services (DFS). The building principal shall inform the Superintendent/designee that a report has been made, and keep the Superintendent apprised of the status of the case.
STUDENTS

Student Educational Records

A cumulative educational record shall be maintained for each student from his/her entrance into school through the last date of attendance or through graduation, whichever occurs first.

Each student's educational record will include information required by state and federal statutes, regulations or agencies and shall include other information considered necessary by school officials.

The District will comply with the mandates of the Family Educational Rights and Privacy Act (FERPA) and the Safe Schools Act regarding confidentiality of student records and disclosure of personally identifiable information.

The parents/guardians of students who are attending or have attended the District's schools have the right to inspect and review the educational records of their students and to request amendment of their students’ educational records. The District has adopted procedures (Regulation 2400) for the granting of parental requests for access to the educational records of their students within a reasonable period of time, but in no case more than forty-five (45) days after the request is made.

All information contained in a student's educational record, except information designated as directory information by the District, shall be confidential and shall be directly accessible only to school officials who demonstrate a legitimate educational interest in the student's records and to parents/guardians or eligible students.

Upon request by military recruiters or an institution of higher learning, the District will provide student’s names, addresses and telephone listings. Parents will be notified annually of their right to individually request that such information not be released without prior parental consent. Military recruiters will be provided the same access to students as is given to institutions of higher learning.
Dear Parents and Guardians:

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Seymour R-II School District, with certain exceptions, obtains your written consent prior to the disclosure of personally identifiable information from your child’s education records. However, Seymour R-II School District may disclose appropriately designated “directory information” without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Seymour R-II School District to include this type of information from your child’s educational records in certain school publications. Examples include:

- A playbill, showing your student’s role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent’s prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 to provide military recruiters, upon request, with three directory information categories – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent.

If you do not want Seymour R-II School District to disclose directory information from your child’s educational records without your prior written consent, you must notify the District in writing by _______ (date). Seymour R-II School District has designated the following information as directory information:

- Student’s name
- Address
- Telephone listing
- Photograph
- Date and place of birth
- Dates of attendance
- Grade Level
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees, honors and awards received

Student Educational Records

Recording of Meetings

The District prohibits the use of audio, video or other recording devices in any meetings between District employees and parents/guardians, including but not limited to meetings held pursuant to the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act. Exceptions to this prohibition will be made on a case-by-case basis and in accordance with federal and state laws. If a parent or guardian wishes to request an exception to this general prohibition, he or she must make a written request to the organizer of the meeting no later than one week prior to the meeting. The request must state the reasons why the parent or guardian believes the District should make an exception and/or why he or she believes that the use of a recording device is necessary to comply with any applicable federal or state laws. The District will provide a written response to the request prior to the scheduled meeting.
STUDENTS

Student Academic Achievement
Promotion and Retention

The purpose of promotion and retention is to provide maximum consideration for the long range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work, however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

Parents/guardians who wish to appeal the decision for retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the close of school.

The process for reading assessments and remediation, and retention guidelines for students who fail to meet the District’s objectives for reading, are contained in Regulation 2520 – Promotion and Retention.

The District will accept courses offered through Missouri’s K12 Virtual Instructional Program (MoVIP) as units of credit meeting state and local graduation requirements provided however the quantity and quality of completed student works meets standards applicable to the District’s traditional program. (See Policy Virtual Instruction Program).

Eligible students as defined in Regulation 2525 may pursue a timely graduation from high school through the School Flex Program. Eligible students participating in the School Flex Program will be considered full-time students.
INSTRUCTIONAL SERVICES  

Policy 2526  

Student Academic Achievement  

Constitution and American Civics Tests  

As a condition of graduation, student must satisfactorily pass an examination on the principles and provisions of the United States and Missouri Constitutions, American History, American Institutions and American Civics. This requirement may be waived for any student transferring from a school outside the state if the student furnishes acceptable documentation of the student’s successful completion of a course over comparable material.

The Civics examination will consist of one hundred questions similar to the one hundred question examination used by the United States for applicants for citizenship.

All students entering 9th grade after July 1, 2017 must pass an American Civics Test similar to the civics portion of the United States Naturalization Test, produced by the United States Citizenship and Immigration Services. The American Civics Test may be administered in conjunction with testing on the provisions and principles of the United States and Missouri Constitutions, American History and American Institutions.

Policy 2530  
(Regulation 2530)

Student Academic Achievement  

Graduation Requirements - Students with Disabilities  

The District must provide a free appropriate public education (FAPE) for students with disabilities pursuant to the Individuals with Disabilities Education Act (IDEA) until they graduate or until the student reaches twenty-one (21) years of age.

Students with disabilities pursuant to the IDEA who have completed four years of high school shall be allowed to participate in the graduation ceremony of the student’s high school graduating class and all related activities if the student’s individualized education program (IEP) prescribes special education, transition planning, transition services, or related services beyond the student’s four years of high school, and the student’s individualized education program team determines the student is making satisfactory progress toward the completion of the individual education program and participation in the graduation ceremony is determined appropriate.

The District shall provide timely and meaningful written notice to children with disabilities and their parents or guardians about the instant policy. [Notice of the District’s policy shall be provided at the annual IEP meeting that occurs prior to the student’s fourth year of high school.] The purpose of the notice is to inform parents and students about the policy and should not be confused with IDEA notices of action relating to the identification, evaluation, placement, or provision of FAPE.

This policy does not apply to non-IDEA students.

STUDENTS  

Policy 2532  

Student Academic Achievement  

Middle School Students Requesting to Take High School Classes  

To be considered for placement in a high school class, a student must have scored in the 99th percentile in that subject area and have the recommendation of the subject area teacher. Students in fine and practical arts classes must have shown outstanding potential and have received recognition from credible groups outside of the school setting. The final decision will be made by the principals and counselors from each building.
STUDENTS

Graduation and Senior Attendance

Policy 2540

Senior Attendance:

Seniors who have completed the district’s minimum graduation credit requirements at the end of
the first semester will be allowed to discontinue attending school, retain all senior class
privileges and participate in the senior graduation ceremony.

Valedictorians and salutatorians shall have been classified as Seymour High School students for
the last four (4) semesters and have been full time students.

Seniors will sign a letter of acknowledgement prior to beginning the school year signifying they
are aware of early graduation restrictions.

Graduation Ceremony:

The graduation ceremony is the embodiment of student preparation for adulthood and higher
education. It provides the opportunity to involve the community in public education, and
therefore, should be a dignified ceremony.

Students must complete the district’s minimum credit requirements for graduation and have met
all financial obligations to the district prior to the ceremony to participate. A transcript must be
on-hand reflecting credit completion prior to the ceremony.

The senior composite picture is an integral part of the graduating class. A senior picture will not
be included in the senior composite if it is reasonable that the student will not be able to
complete all district graduation requirements prior to the end of the school year.

All graduates are required to wear authorized caps, gowns, and tassels. Alterations of any kind to
the authorized wear will not be allowed. Honors regalia will be listed in the student handbook.
No jewelry, corsages, or scarves may be worn on the outside of the robe. No signs or slogans are
permitted on top of the cap or the gown. Students will not wear shorts, and appropriate dress
shoes will be worn by both males and females. Purses will not be carried by females. Students
will not carry any unauthorized items during any part of the ceremony.

Inappropriate behavior that disrupts good order and discipline or failure to adhere to the student
requirements listed in this policy will be grounds for removal from the ceremony.
STUDENTS

Policy 2550

Student Academic Achievement

Dual Credit Scholarships

The District may provide “dual credit” courses in conjunction with an accredited Missouri higher education institution. Such courses would be taught in a district high school by instructors possessing appropriate academic credentials. Eligible students participating in the program would be eligible to earn high school and college credit simultaneously.

Subject to state appropriation of funds, dual credit students may be eligible for a dual credit scholarship. Dual credit students would be eligible to receive up to fifty (50%) percent of the tuition cost paid by the student to enroll in a course offered by an approved dual credit provider. However, no student shall receive more than five hundred dollars ($500.00) annually for all dual credit courses taken.

In order to be eligible to receive a dual credit scholarship a student must:

1. Be a United States citizen or permanent resident;
2. Be a Missouri resident;
3. Have a cumulative high school GPA of at least 2.5 on a four point scale.
4. Meet one or more of the following indicators of economic need:
   a. Be eligible to be enrolled in a federal free or reduced lunch program; or
   b. Reside in a foster home; be a ward of the State; or be homeless; or
   c. Receive low income public assistance or live in federally subsidized public housing.

ceremony.
STUDENTS Policy 2600

Discipline

The District has the authority to discipline for student conduct that is prejudicial to good order and discipline in the schools as provided by state law. School officials are authorized to hold students accountable for misconduct in school, on school property, and during school sponsored activities. Students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline up to and including expulsion. However, no student will be confined in an unattended locked space except for emergency situations while awaiting the arrival of law enforcement officials.

Students forfeit their right to a public school education by engaging in conduct prohibited in Regulation 2610, the code of student conduct, and/or state or federal law. Disciplinary consequences include, but are not limited to, withdrawal of school privileges (athletics, intramurals, student clubs and activities and school social events); the reassignment of the student to another school; removal for up to ten (10) school days by building principals; extension of suspensions for a total of 180 days by the Superintendent; and longer term suspension and expulsion from school by the Board of Education. See also Policies 2610, 2662, and 2663.

Removal of any student who is a student with a disability under Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act is subject to state and federal procedural due process rights. See policy 2672 and its corresponding regulation.

The District will provide annual in-service training to all employees concerning the District's discipline regulations and their implementation. Annual training will also include, but will not be limited to, approved methods of dealing with school violence, discipline of students with disabilities, and the requirements of student confidentiality.

STUDENTS Policy 2610 (Regulation 2610)

Discipline

Misconduct and Disciplinary Consequences

All students attending school in the Seymour R-II School District will be expected to accept the obligation and responsibility to attend school on a regular basis and to comply with the District's discipline code set forth in Regulation 2610. Those students who choose not to fulfill their responsibilities at school will be held accountable for their conduct. Consequences for individual acts of misconduct are calculated to punish the student; to deter future misconduct; and to provide a safe and positive environment in which students can learn. Students who engage in significant acts of misconduct off campus which materially and adversely impact the educational environment of district students to the extent allowed by law will be subject to discipline up to and including expulsion.

Student Citizenship

A major goal of the education experience is the development of responsible citizenship and acceptable behavior on the part of the student. Seymour School shall maintain an atmosphere of orderly conduct which allows the student to practice responsible citizenship, to gain experience in decision making and to limit his or her expressions of freedom to those which do not interfere with the rights or property of others. It shall be the responsibility of each student to know and to follow the established rules of orderly conduct which are presented by school officials.
STUDENTS

Policy 2620
(Regulation 2620)

Discipline
Firearms and Weapons in School

The District recognizes firearm possession as a potential threat to the health, safety and security of students, employees, and other persons. The District will not tolerate the presence of firearms on the premises of our schools. This prohibition includes possession of firearms and weapons on school playgrounds, school parking lots, school buses, and at school activities, whether on or off school property. The District complies with the provisions of the Improving America's Schools Act of 1994 and other applicable federal and state law.

Nothing in this policy shall prohibit the District from permitting a Civil War re-enactor to bring a Civil War era weapon to school for educational purposes so long as the weapon is not loaded.

Students who violate this policy will be suspended for no less than one (1) year and are subject to permanent expulsion. However, the Superintendent may recommend to the Board a modification of the suspension on a case-by-case basis. Students with disabilities under the Individuals with Disabilities Act and/or Section 504 of the Rehabilitation Act are entitled to the protections of those laws.

This policy will be annually submitted to the Department of Elementary and Secondary Education together with a report of disciplinary action taken for possession of a "firearm" or “weapon” as defined in Regulation 2620.

STUDENTS

Policy 2630

Discipline
Closed Campus

With the safety and welfare of the students in mind, the Board of Education has closed all campuses during the school day. Permission to leave school will be granted only for valid reasons, and only with a written request signed by a parent/guardian. In emergency situations, a telephone call from a parent/guardian may suffice, with approval of the building principal.
STUDENTS Policy 2640

Discipline

Student Use of Tobacco, Alcohol and Drugs

Smoking

The Board of Education believes that smoking; the use of any tobacco products; and substances appearing to be tobacco products are detrimental to the health and well-being of staff and students. This prohibition includes electronic cigarettes, vaping and similar objects used in conjunction with vaping. Therefore the Board prohibits the use, sale, transfer and possession of tobacco products and substances appearing to be tobacco products, i.e. e-cigarettes, vaping paraphernalia, at school and at school activities.

Alcohol and Drug Use

The improper use of controlled substances, alcohol and substances represented to be such is detrimental to the health and welfare of students and is detrimental to discipline in school. Such conduct, as well as the possession of drug paraphernalia, is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

Pursuant to 29 U.S.C. 705(20)(c)(iv), a student with a 504/ADA disability who is currently engaging in the illegal use of alcohol or drugs is not considered a student with a disability under those laws and the District, may take disciplinary action – to the same extent that disciplinary action is taken against nondisabled students – in relation to that use or possession of alcohol or drugs. In such cases, the due process procedures contained in the Section 504 regulations will not apply to protect those students. This provision does not apply to students who are identified as disabled under the Individuals with Disabilities Education Act. However, school personnel may remove an IDEA disabled student to an interim alternative educational setting for not more than 45 school days without regard to whether that student’s behavior is a manifestation of his/her disability where that student knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the District’s jurisdiction. “Illegal drug,” as it pertains to the discipline of IDEA students, means a controlled substance but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or under any other authority.

The determination of whether or not a student is under the influence of alcohol or a controlled substance is based upon a variety of information including but not limited to, physical appearances, speech patterns, and witnesses statements. While not required, District administrators may request a student suspected of alcohol use to submit to a Breathalyzer. Conduct that includes possession of or use of alcohol or controlled substances as well as the possession of drug paraphernalia is prohibited and is subject to disciplinary action as set forth in Regulation 2610.
**CBD Products**

Due to the lack of consistency in labeling related to the potency of many CBD and similar products; due to the lack of research into the long-term effects of these products; and due to the overriding concern for the health and safety of District students, CBD and similar products are prohibited on school premises and at school related activities. Penalties for violations of this policy will be consistent with the penalties for alcohol and drug possession.

Discipline

Drug-Free Schools

Pursuant to requirements of the 1989 amendments of the Drug-Free Schools and Communities Act, pursuant to the requirements of the Safe Schools Act, and for the purpose of preventing the use of illicit drugs and alcohol by students, the District shall provide age-appropriate, developmentally based drug and alcohol education and prevention programs to all students in all grades from early childhood level through grade twelve (12).

Such programs address the legal, social and health consequences of drug and alcohol use, and provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The District shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs in order to avoid suspension or expulsion if they are found to be in violation of this policy. All parents/guardians and students shall annually be provided with a copy of this policy.

The District certifies that it has adopted and implemented the drug prevention program described in this policy in the form required by the Department of Elementary and Secondary Education or the United States Department of Education. The District conducts a biennial review of such program to determine its effectiveness, to implement necessary changes and to ensure that the disciplinary sanctions are consistently enforced.
STUDENTS

Policy 2650

Discipline
Student Vehicle Use

Building principals have the authority to regulate student use of automobiles at school. Use of school property for student parking purposes is a privilege that may be denied due to violation of District regulations and school policies. Student vehicles parked on District property are subject to search by school officials where there is reason to believe a vehicle contains materials prohibited by District regulations.
**STUDENTS**

**Policy 2651**

**Discipline**

**Student Dress**

The Board of Education expects student dress and grooming to be neat, clean and in keeping with community standards, so that each student may share in promoting a positive, healthy and safe atmosphere within the School District. This expectation includes the school day and school sponsored extracurricular activities. The Board may require students to wear a school uniform.

Students shall observe modes of dress and standards of personal grooming that are in conformity with the educational environment and necessary to maintain an orderly and safe atmosphere for all students. Apparel is expected to conform to reasonable student standards of modesty, and as such, no excessive or inappropriate areas of skin or undergarments may be exposed. No apparel or grooming which presents a safety concern is permitted. No apparel displaying messages that are gang-related, sexually explicit, vulgar, violent, or advocating illegal activities is permitted. Further, no clothing or personal grooming that disrupts, or can be forecasted to disrupt, the educational environment is permitted.

**STUDENTS**

**Policy 2652**

**Discipline**

**Student Conduct on Buses**

The safety of students during their transportation to and from school is a responsibility which they and their parents/guardians share with the bus drivers and school officials. Therefore, the rules of student conduct will be issued to all students at the beginning of the school year, and to new students upon enrollment.

**STUDENTS**

**Policy 2653**

(Regulation 2653)

**Discipline**

**Student Participation in Secret Organizations and Gangs**

The Board of Education prohibits membership in secret fraternities or sororities, or in other clubs or gangs not sponsored by established agencies / organizations recognized by the School District.

Gangs which initiate, advocate or promote activities which threaten the safety or well being of persons or property on school grounds or which disrupt the school environment are harmful to the educational process.

Any student wearing, carrying or displaying suspected gang paraphernalia on clothing or exhibiting behavior or gestures which symbolize gang membership will be subject to disciplinary action including suspension and expulsion.
Discipline
Student Use and Care of School Property

The Board of Education recognizes that acts of destruction, defacing, trespassing, burglary and theft of District property are contrary to the interests of students, staff and tax payers. The District officials will cooperate fully with all law enforcement agencies in the prevention of crimes against District property as well as in the prosecution of persons involved in such conduct.

The District will seek restitution from students and other persons who have damaged or destroyed District property. As permitted by law, the District will also seek restitution from the parent/guardian of children involved in such misconduct.
STUDENTS

Policy 2655
(Form 2655)

Discipline

Bullying

The District is committed to maintaining a learning and working environment free of any form of bullying or intimidation. Bullying is strictly prohibited on school grounds, or school time, at a school sponsored activity or in a school related context. Bullying is the intentional action by an individual or group of individuals to inflict intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting acts of bullying.

Cyberbullying means bullying as defined above through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. The District may prohibit and discipline for cyberbullying that originates on any District campus or at a District activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the District’s campus or at a District activity using the student's own personal technological resources. Further, students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline.

Bullying, as defined in this policy, is strictly prohibited. Students are encouraged to report any incident of bullying which they have witnessed or incurred, by contacting their building principal. District employees are required to report any instance of bullying of which the employee has witnessed within two (2) school days of the occurrence. Employees shall report the occurrence to the building principal, who is the person the District designates to receive reports of incidents of bullying. A principal who receives a report of an incident of bullying shall initiate an investigation into the allegations within two (2) school days of receipt of the report. The principal may assign other employees to assist in the investigation, or request that the superintendent assign an outside investigator. The investigation shall be completed within ten school days from the date of the written report of bullying unless good cause exists to extend the investigation. No employee or student who reports an act of bullying shall be subject to reprisal or retaliation for making such a report. Any person who engages in reprisal or retaliation against an employee or student who reports an act of bullying shall be subject to disciplinary action.
Students who are found to have violated this policy will be subject to consequences depending on factors such as: age of student(s), degree of harm, severity of behavior, number of incidences, etc. Possible consequences to a student for a violation of this policy include: loss of privileges, classroom detention, conference with teacher, parents contacted, conference with principal, in-school suspension, out-of-school suspension, expulsion and law enforcement contacted.

The District shall give annual notice of the policy to students, parents or guardians, and staff. This policy shall be included in all student handbooks. This policy shall also be posted on the District’s web page (as a Board policy) and a copy shall be placed in the District Administrative Office.

The District shall provide information and appropriate training to District staff who have significant contact with students regarding the policy. All staff with significant student contact shall be trained on the requirements of this policy on an annual basis.

The District shall provide education and information to students regarding bullying, including information regarding this policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying. The District shall instruct its school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying’s negative effects. Such techniques include but are not limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills or encouraging the student to develop an internal locus of control. District administrators will implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.

Discipline
Student Cell Phone Usage

Cell phones in schools pose an increasing risk of school disruptions, bullying, criminal activity, and academic dishonesty. Student cell phones are only allowed on school property during school hours if they are used in classroom instructional activities under the supervision of a teacher with the permission of the building principal. Cell phones are not allowed in dressing areas during extracurricular activities.

Generally, cell phones will be confiscated and only returned to adults approved by the principal. The first offense will be a warning, the second offense will result in in-school suspension and the third and subsequent offense will result in out-of-school suspension. Principals may modify this discipline as grade-levels warrant.
STUDENTS Policy 2660
(Regulation 2660)

Discipline
Detention

The provisions of a detention program for student violations of policies, rules and regulations shall provide principals with an additional alternative for dealing with disciplinary problems that occur in the schools. Detention is an assigned before-school and/or after-school period, during which student activity is closely monitored and severely restricted. Students are expected to be quiet during the entire detention period and to work exclusively on assigned tasks.

STUDENTS Policy 2661

Discipline
In-School Suspension

In-school suspension is a structured disciplinary action in which a student is isolated or removed from regular classroom activities, but is not dismissed from the school setting. The principal/designee may assign students to the in-school suspension program for a reasonable and specified period of time.

STUDENTS Policy 2662
(Regulation 2662)

Discipline
Suspension

Suspension refers to an exclusion from school for a specific period of time short of permanent exclusion. Building principals are authorized to suspend students for periods of time not to exceed ten (10) consecutive school days for violation of District regulations, and are authorized to impose additional suspensions of not more than 10 consecutive school days in the same school year for separate acts of misconduct. Building principals may also recommend extensions of suspension for periods of time up to 180 consecutive school days by the Superintendent. The Superintendent of schools may suspend students for periods up to 180 consecutive school days and recommend longer suspensions and expulsions to the Board of Education. Only the Board may impose suspensions in excess of 180 consecutive school days.

STUDENTS Policy 2663
(Regulation 2663)

Discipline
Expulsion

The term "expulsion" refers to permanent exclusion from school.

If a student consistently or grossly refuses to conform to school policies, rules and/or regulations, the Superintendent may recommend to the Board of Education that the student be expelled from school. Parent(s) (guardian(s)) may waive the right to a hearing for their student provided the student is under the age of eighteen (18) and provided the waiver is in writing.
STUDENTS

Policy 2664
(Regulation 2664)

Discipline
Enrollment or Return Following Suspension and/or Expulsion

No student shall be readmitted, or permitted to enroll or otherwise attend school (except as may otherwise be required by law), following a suspension or expulsion from this or any other school until the District has conducted a conference to review the conduct that resulted in the expulsion or suspension, and any remedial actions needed to prevent any future occurrences of such or related conduct.
STUDENTS

Discipline

Corporal Punishment: Authorized

Corporal punishment should be used only after other methods have failed and when there is
reason to believe it will be helpful in maintaining discipline or in the development of the
student's character and power of self-control. Corporal punishment must be reasonable and shall
be administered only on the buttocks of the student.

All instances of corporal punishment shall be witnessed by at least one other adult member of the
school staff and will only be administered by a principal or other District administrator. The use
of reasonable force for a District employee to protect persons or property is not abuse within the
meaning of Chapter 210, RSMo.

Corporal punishment is not allowed at the Preschool level.
STUDENTS

Policy 2671
(Regulation 2671)

Discipline

Student Discipline Hearings

Parents/guardians of students suspended for more than ten (10) school days may make a written request for a hearing before the Board of Education. This request will be addressed to the Superintendent who will review all matters concerning the suspension and make a recommendation whether to refer the request for a Board hearing. It will be the sole discretion of the Superintendent whether to deny the request or refer the request to the Board of Education for a hearing.

In conducting a discipline hearing the Board will carefully consider the information presented by the Administration and by the parent/guardian. In making its decision concerning guilt and innocence as well as punishment, the Board will be mindful of Board Discipline Policies in place, the effect of its decision upon the individual student, and the safety and welfare of District students and staff.

STUDENTS

Policy 2672
(Regulation 2672)

Discipline

Discipline of Disabled Students

The obligation and the responsibility to attend school regularly and to comply with the District's discipline policies applies to all students. The District may discipline a student with a disability who has not complied with the District's discipline policies in a manner that is consistent with the District's policies and applicable law. Special education services will be provided to a disabled student if the student has been removed from school for more than ten (10) school days. If a student with a disability is removed for less than ten (10) cumulative days, educational services will be provided only if such services are provided to students without disabilities who have been similarly removed in accordance with applicable federal and state law and Board policy.
STUDENTS Policy 2673 (Regulation 2673)

Discipline

Reporting of Violent Behavior

The District requires school administrators to report acts of school violence to all teachers at the attendance area and other District employees who are directly responsible for the student's education or who interact with the student in the performance of the employee's duties, and who have a need to know. School administrators will also disclose to appropriate staff members portions of any student's individualized education program that is related to past or potentially future violent behavior. "Violent behavior" and the phrase "acts of school violence" are defined as the use of physical force by a student with the intent to do serious physical injury to another person while on school property, including a school bus, or while involved in school activities.

In addition, the Superintendent of Schools will report to law enforcement officials, as soon as is reasonably practicable, the commission of any of the acts or related juvenile offenses listed in Regulation 2673 which are committed on school property, including school buses, or while involved in school activities. These offenses include:

1. First degree murder 13. Voluntary manslaughter
3. Kidnapping 15. Second degree assault
4. First degree assault 16. Assault (except as provided in the Agreement contained in Regulation 2673)
5. Forcible rape 17. Felony restraint
6. Forcible sodomy 18. Property damage in the first degree
7. Burglary in the first degree 19. Possession of a weapon
8. Burglary in the second degree 20. Child molestation in the first degree
10. Distribution of drugs 22. Sexual misconduct involving a child
11. Distribution of drugs to a minor 23. Sexual assault
12. Arson in the first degree

The Superintendent will also notify the appropriate division of the Juvenile Court of the suspension of any student under court jurisdiction for more than ten (10) days.

Each school employee is required to notify their immediate supervisor if they have reason to believe that a student or District employee has committed any of the offenses set out in this policy, has physically or sexually abused any District student, or possessed a controlled substance or weapon in violation of District policy. The principal will immediately report to the appropriate law enforcement agency and to the Superintendent/designee any instance where a student is found to be in possession, on their person or in their possession, of any weapon defined in Regulation 2620 or of controlled substances, or is found to have placed such substances elsewhere on school premises. For purposes of this policy, “school premises” shall be defined to include school property, school playgrounds, school parking lots, school buses, or at school activities whether on or off school property.
The Superintendent/designee will prepare and maintain records of serious violations of the District's discipline policy. Individual student records are available to school employees who are directly responsible for the student's education or who interact with the student in the performance of the employee's duties. In addition, such discipline records will be made available within five (5) days to any requesting School District where the student seeks to enroll.

The District will report, in compliance with state regulations, the number, duration of, and reasons for expulsions and suspensions of more than ten (10) days.
Student Welfare

Reporting Student Abuse

The Board of Education believes that school staff members, school volunteers and school contractors, are in unique positions to assist children, families, and the community in dealing with the issue of child abuse and neglect. Child abuse is defined as any physical injury, sexual abuse or emotional abuse inflicted on a child other than by accidental means. Neglect is defined as the failure to provide the proper or necessary support, education, nutrition or medical, surgical or other care necessary for the child's well-being. Employees, volunteers and school contractors making reports of allegations of sexual abuse of a student will be provided immediate unrestricted use of communication technology and will be temporarily released from their work duties to make an immediate report.

If a school employee, volunteer or school contractor has a reasonable belief that a student has been or maybe subjected to abuse or neglect, such employee, volunteer or school contractor and the Superintendent shall report the information immediately upon receiving the information to the Children’s Division. Thereafter, the Superintendent will investigate the allegation for the purpose of making decisions about the accused person’s employment. Depending upon the specific facts, the District may place the alleged abuser on paid leave of absence; place the employee in a non-student contact position; initiate dismissal proceedings, or continue the employee in their present position pending outcome of the investigation.

Any school district employee, volunteer or school contractor acting in good faith, who reports alleged sexual misconduct on the part of a school employee will not be disciplined or discriminated against because of such reporting.

The District will annually provide employee and volunteer training, which will include but not be limited to current information concerning identification of the signs of sexual abuse in children as well as the identification of the danger signals of potentially abusive relationships between children and adults. This training will emphasize the importance of mandatory child abuse reporting, including the obligation to report suspected abuse by other mandated reporters. Employees and volunteers will receive training on the need for and methods to create an atmosphere of trust so that students believe their school and school employees are available to discuss matters concerning abusive behavior.
The District will post in each student restroom and in a clearly visible location in each school office, the toll free child abuse and neglect hotline number established by the Children’s Division. These signs will be published in both English and Spanish. Such child abuse and neglect hotline numbers shall be depicted in large print on posters 11 inches by 17 inches and will be placed at eye level for easy viewing. The hotline number will be shown in bold print. The signs shall also contain instructions to call 911 for emergencies and contain directions for accessing the Children’s Division’s website for more information on reporting abuse and neglect.

**STUDENT**

**Work Certificate**
**Employment of Students**

The Superintendent of Schools will make provision for the issuance of work permits to students between the ages of fourteen (14) and sixteen (16). In addition, principals/designees and District employees holding a student service certificate and, who is authorized by the Superintendent, may issue work certificates to students who are attending their schools. Employees with authority to issue certificates may not issue a certificate to their own child.

Principals issuing work certificates will provide self-certification that the principal understands the legal requirements for issuing work certificates. The principal issuing a work certificate will submit a copy of each certificate and the certificate application to the Superintendent. The Superintendent may revoke a certificate issued by a principal if the Superintendent becomes aware of any grounds upon which the student may be ineligible for a work certificate.
STUDENTS

Welfare
Supervision of Students

Students are to be under supervision of the professional staff at all times during school hours and at school sponsored activities.

It is the responsibility of principals to arrange for adequate supervision. It is the duty of teachers to perform assigned supervision. Students are not to be left unsupervised during the school day whether in instructional areas or on the playground.

When releasing students to parents/guardians, school staff must advocate for their safety, when necessary. If a staff member feels that a parent or guardian is impaired by alcohol, drugs or just mentally impaired to the degree they fear for the student’s safety, they should not release the student. Instead, they should inform the parent/guardian that because they suspect they are impaired, law enforcement must be called to physically approve the release for the safety of the child.
STUDENTS

Policy 2740
(Regulation 2740)

Student Welfare

Student Safety

The District places a high priority on the safety of its students and employees. When a student or employee is the victim of a violent criminal offense, severe disciplinary consequences will be imposed. (See also Regulation 2610 - Behavioral Expectations.) In addition and pursuant to the Every Student Succeeds Act, student victims of a violent criminal offense that was committed on school premises will be offered transfer to another District school. To insure awareness of this policy, the parents of student victims will be notified in writing of their right to a school transfer.

For purposes of this policy, a victim is a student who has suffered personal injury or injuries to his or her property as a direct result of a violent criminal offense. This definition does not include bystanders or witnesses to the act unless they suffered personal or property injury as a direct result of a violent criminal offense while on school premises.

The District will notify the Department of Elementary and Secondary Education (DESE) of all violent criminal offenses committed on school premises when the victim is a student or employee. Reportable offenses are set out in Regulation 2740.

STUDENTS       Policy 2742

Student Welfare

Sexual Abuse Awareness Training

Beginning in the 2020-21 school year and annually thereafter, The District will provide trauma-informed, developmentally-appropriate sexual abuse training to students in grades 6-12. Student training will include, but not be limited to:

1. Instruction in recognizing sexual abuse;

2. Instruction in reporting incidents of sexual abuse;

3. Instruction in actions that student-victims of sexual abuse can take to obtain assistance and intervention; and

4. Instruction in resources that are available to students affected by sexual abuse.

Prior to inception of the training, the District will notify parents/guardians of the training content and of the parents/guardians right to have their student excused from the training. Upon written request of the parent/guardian their student will be excused from the training.

Policy 2745

Student Welfare

Electronic Data Breach

In the event of a breach of data that includes personal student information maintained in an electronic form, the District will send written notification of the breach to the student’s parent/guardian. In addition, the District will also send notification of such breach to the Department of Elementary and Secondary Education and to the state auditor.

For purposes of this policy, student personal information shall mean:

1. Social Security Number
2. Credit Card Numbers
3. Driver’s License Numbers
4. Medical Information
5. Health Insurance Information
6. Financial Account Information

Student personal information does not include information that is lawfully obtained from publically available sources or from federal state or local government records that are lawfully made available to the general public.

*****

August 2018, Copyright © 2018 Missouri Consultants for Education, LLC
The District is committed to the optimal development of every student. The District believes that for students to have the opportunity to achieve personal, academic, developmental and social success, there needs to exist a positive, safe and health-promoting learning environment at every level, in every setting, throughout the school year.

The District promotes healthy schools, by supporting wellness, good nutrition, and regular physical activity as part of the total learning environment. The District supports a healthy environment where children learn and participate in positive dietary and lifestyle practices. Schools contribute to the basic health status of children by facilitating learning through the support and promotion of good nutrition and physical activity. Improved health optimizes student performance potential.

Beginning no later than the 2017-18 school year, students will receive thirty (30) minutes of cardiopulmonary resuscitation instruction and training in the performance of the Heimlich maneuver or other first aid for choking. Students will receive this training at least once during the student’s four years of high school. Instruction will be included in the District’s existing health or physical education curriculum. Students with disabilities may participate to the extent appropriate as determined by the student’s IEP or §504 Plan.

Policy 2760
(Regulation 2760)
(Form 2760)

Student Welfare

Students in Foster Care

The District is committed to ensuring and facilitating the proper educational placement, enrollment in school and check out from school for foster children.

In order to facilitate this process and to serve as the educational liaison for District foster children, the District will designate [Select One: Director of Student Services, Guidance Counselor, etc.] to oversee and assess the District’s foster care program.

The Board recognizes students in foster care experience mobility in and out of the foster care system and from one home placement to another that may disrupt their education, and which may create barriers to academic success and on-time graduation. The District, in collaboration with state and local agencies, will work to minimize or eliminate educational barriers for students in foster care, particularly in enrollment, transfer of student records, and transportation to their school of origin, where appropriate. For purposes of this policy, “school of origin” is the school in which the student is enrolled at the time of placement in foster care. The District will, to the largest extent possible, ensure that a child in foster care enrolls or remains in his or her school of origin, unless a determination is made that remaining in the student’s school of origin is not in the student’s best interest.

In determining the student’s best interest for purposes of this policy, the following factors will be considered:

1. Preference of the student;
2. Preference of the student’s parent or educational decision making;
3. The student’s attachment to the school, relationships with staff and peers;
4. Placement of the student’s siblings;
5. Influence of the school climate on the student, including safety;
6. Availability and quality of the services in the school in meeting the student’s educational and socioemotional needs;
7. History of school transfers and their impact;
8. Impact of the length of commute;
9. Whether the student has a disability under the IDEA or Section 504;
10. Whether student is an EL student receiving language services.

A foster care child whose home placement is changed may remain enrolled and attend their school of origin, or return to a previously attended school in an adjacent district. The District
will accept for credit full or partial course work satisfactorily completed by a foster child while attending a public school, nonpublic school or non-sectarian school in compliance with District policies, regulations and practices.

If a child in foster care is absent from school due to a decision to change the placement of a pupil made by a court or child placing agency, or due to a verified court appearance or related court-ordered activity, the grades and credits of the pupil will be calculated as of the day the pupil left school and no reduction in grades will occur as a result of the pupil’s absence under these circumstances.

If a foster care student transfers into the District prior to or during a school year, the District will initially honor the placement of the student in educational courses and programs based on the student’s prior enrollment or educational assessments; will provide comparable services to transferring foster care students with disabilities based on the student’s current IEP; and will make reasonable accommodations and modifications to address the needs of a student with disabilities, subject to an existing 504 or Title II Plan in order to provide equal access to education. The District will conduct evaluations, where necessary, to ensure proper placement and services.

The District will waive specific courses required for graduation if similar course work has been satisfactorily completed at another school. Similarly, the District may waive prerequisites for placement in a District course or program based upon courses taken at a prior school. If a waiver is denied for reasonable justifications, the District will provide an alternative means of acquiring the required course work so that graduation may occur on time. If foster care students who transfer at the beginning of their senior year or during their senior year are deemed ineligible to graduate after all alternatives have been considered, the sending District and this District will ensure that a qualified student who satisfied graduation requirements of the sending school, will receive a diploma from the sending school.

Students in foster care who have completed the graduation requirements of the District while under juvenile court jurisdiction will receive a diploma in the same manner as other District students.

**Transportation**

Some students in foster care who are residents of the District may need transportation to remain in their school of origin when it is in their best interest. To facilitate transportation for such students, the District will collaborate with the state and/or local child welfare agencies to ensure that transportation for such students is arranged, provided, and funded. If there are additional costs incurred in providing transportation to the school of origin, the District will provide such transportation if:

   a) The local child welfare agency agrees to reimburse the District for such costs;
   b) The District elects to pay the costs; or
   c) The District and the local child welfare agency agree to share the cost.
Dispute Resolution

In the event that a caregiver or education decision-maker disputes a District decision regarding the best interest or the provision of other educationally related services for a student in foster care, the caregiver or education decision-maker may use the District’s dispute resolution procedure. During the pendency of the dispute resolution, the student shall remain in his or her school of origin in order to minimize disruptions and to reduce the number of moves between schools. Similarly, students attending their school of origin are entitled to continue to receive transportation during the appeal.

In the event of such dispute, the District will inform the educational decision-maker or parent of their right to appeal the Best Interest Determination in a language and format reasonably calculated to inform the parent/educational decision-maker of their rights. They will also be provided with the following:

1. Contact information for the District’s foster care point of contact.
2. An explanation of the Best Interest Determination.
3. A step-by-step description of how to appeal the Best Interest Determination at Level I.
4. A statement advising that the student will remain in the school of origin, receiving all appropriate educational services during the pendency of the appeal.
5. Timelines for dispute resolution at each level.
6. Notice of rights to appeal to DESE if the parent/educational decision-maker is not satisfied of the level decision.

Level I

In order to appeal from the Best Interest Determination, a parent/educational decision-maker must submit their appeal in writing. This writing must contain the following:

1. The school in which enrollment is sought.
2. The basis for seeking enrollment.
3. The requesting parent/educational decision-maker’s name and contact information.

If the appeal is submitted by email, the subject line should provide “Foster Care Appeal.”

The appeal letter must be submitted within ten (10) weekdays of receiving the District’s notice of the right to appeal the decision. Failure to timely submit an appeal letter may result in dismissal of the appeal.
The Superintendent/designee will arrange for a personal conference with the parent/educational decision-maker, the student where appropriate, and the student’s case manager or point of contact. Prior to the meeting, the Superintendent will have reviewed the documentation from the Best Interest Determination meeting. The conference will be arranged within ten (10) days of receipt of the appeal letter and will be conducted as soon as practicable.

Within five (5) days of the conference, the Superintendent/designee will inform the parent/educational decision-maker as well as other parties attending the meeting of the Superintendent/designee’s decision. The decision will be communicated in writing. The written decision will include the following:

1. Copy of the complete Level I appeal packet (appeal, Best Interest documents, notices, and decision).
2. The decision and an explanation of the decision.
3. Directions concerning the procedure to appeal the decision to Level II, including the DESE foster care point of contact, including that individual’s name, phone number and email address.

Level II

If the parent/educational decision-maker disagrees with the Level I decision, they may submit a written and dated appeal letter headed “Foster Child Appeal” which must include:

1. The school in which enrollment is sought and the basis for seeking such enrollment.
2. The parent/educational decision-maker’s name and contact information.
3. Best Interest Determination notes and reports.
5. Copy of the District’s Level I decision.

The appeal letter must be submitted to the DESE contact person and the District’s Superintendent within five (5) days of receipt of the Level I decision. The District will have five (5) days from receipt of the Level II appeal letter to submit its response, which will be headed “Foster Child Appeal.” Documents submitted after the stated deadline will not be considered.

The State’s decision will be made by a three person panel including the DESE foster care point of contact, an additional DESE representative, and a representative of the state child welfare agency. The panel will make its decision within thirty (30) days of receipt of the Level II appeal letter. The DESE foster care point of contact will send the written decision to the parent/educational decision-maker and the Superintendent. The decision will include:

1. Copy of the Level II packet.
2. The decision and its explanation.

Student Welfare

Temporary Alternative Placement Agreements

If a parent/guardian is temporarily unable to provide care or support for their child and if the child is not in imminent danger of death; serious bodily injury or being sexually abused; an adult relative and the parent/guardian of the child may enter into a Temporary Alternative Placement Agreement (“Agreement”) with Missouri’s Children’s Division.

The Agreement provides for a placement with an adult relative for a period of ninety (90) days. The adult relative shall make the day-to-day decisions for the child including educational, medical decisions, as well as enrollment in school for the term of the Agreement.

The adult caregiver (relative) is required to notify the District of the Agreement and is required to provide the District with a copy of the Agreement.

This provision will become effective only when the Children’s Division has prepared and disseminated Rules and Regulations governing such Agreements.

Transfer of Care and Custody

A parent or legal custodian of a student may execute a power of attorney transferring the care and custody of the student for a period of up to one year. The transfer of custody will not change or modify parental or legal rights contained in an existing court order or deprive parents of visitation. Parents or legal guardians may revoke the power of attorney at any time.

Parents or legal custodians who are members of the Armed Forces, including reserve components, the Commissioned Officer Corps of the National Oceanic and Atmospheric Administration (NOAA), the Public Health Services of the United States, Department of Health and Human Services detailed for duty with the United States Armed Forces, or who is required to enter or serve in the active military service of the United States, under a call or order of the President of the United States, or to serve on state active duty, may delegate care and custody of their student for a period of longer than one year if on active duty service. The delegation of care and custody may not exceed the term of active duty service plus thirty (30) days.

The delegation of care and custody will not alter or affect the District’s residency requirements.

STUDENTS

Policy 2770

Student Welfare
Seclusion and Restraint

Purpose

It is the purpose of this policy to:

- Meet the requirements of RSMo 160.263.
- Promote safety and prevent harm to all students, school personnel and visitors in the school district.
- Treat all students with dignity and respect in the use of discipline and behavior-management techniques.
- Provide school personnel with clear guidelines about the use of seclusion, isolation and restraint on school district property or at any school district function or event.
- Promote retention of teachers and other school personnel by addressing student behavior in an appropriate and safe manner.
- Promote parent understanding about state guidelines and district policies related to the use of discipline, behavior management, behavior interventions and responses to emergency situations.
- Promote the use of non-aversive behavioral interventions.

Definitions:

“Authorized School Personnel” means school personnel who have received annual training in:
- De-escalation practices,
- Appropriate use of physical restraint,
- Professionally-accepted practices in physical management and use of restraints,
- Methods to explain the use of restraint to the student who is to be restrained and to the individual’s family,
- Appropriate use of isolation,
- Appropriate use of seclusion, and
- Information on the policy and appropriate documentation and notification procedures.

“Assistive technology device” means any item, piece of equipment or product system that is used to increase, maintain or improve the functional capacities of a child with a disability.

“Aversive behavioral interventions” means an intervention that is intended to induce pain or discomfort to a student for the purpose of eliminating or reducing maladaptive behaviors, including such interventions as: contingent application of noxious, painful, intrusive stimuli or activities; any form of noxious, painful or intrusive spray, inhalant or tastes; or other stimuli or actions similar to the interventions described above. The term does not include such interventions as voice control, limited to loud, firm commands; time-limited ignoring of a specific behavior; token fines as part of a token economy system; brief physical prompts to
interrupt or prevent a specific behavior; interventions medically necessary for the treatment or protection of the student.

“Behavior Intervention Plan (BIP)” sets forth specific behavior interventions for a specific student who displays chronic patterns of problem behavior.

“Chemical restraint” means the administration of a drug or medication to manage a student’s behavior that is not a standard treatment and dosage for the student’s medical condition.

“Emergency situation” is one in which a student’s behavior poses a serious, probable threat of imminent physical harm to self or others or destruction of school or another person’s property.

“Functional Behavior Assessment” a formal assessment to identify the function or purpose the behavior serves for the student so that classroom interventions and behavior support plans can be developed to improve behavior. The assessment could include observations and charting of the behavior and interviews with family, teachers, and the student, so as to determine the frequency, antecedent and response of the targeted behavior.

“IEP” means a student’s Individualized Education Program as defined by the Individuals with Disabilities Education Act (IDEA).

“Isolation” means the confinement of a student alone in an enclosed space without locking hardware.

“Law enforcement officer” means any public servant having both the power and duty to make arrests for violations of the laws of this state.

“Locking hardware” means mechanical, electrical or other material devices used to lock a door or to prevent egress from a confined area.

“Mechanical restraint” means a device or physical object that the student cannot easily remove that restricts a student’s freedom of movement or normal access to a portion of his or her body. This includes but is not limited to straps, duct tape, cords or garments. The term does not include assistive technology devices.

“Physical escort” means the temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out or eloping to walk to a safe location.

“Physical restraint” means the use of person-to-person physical contact to restrict the free movement of all or a portion of a student’s body. It does not include briefly holding or hugging a student without undue force for instructional or other purposes, briefly holding a student to calm them, taking a student’s hand to transport them for safety purposes, physical escort or intervening in a fight.

“School personnel” means
o Employees of a local board of education.
  o Any person, paid or unpaid, working on school grounds in an official capacity.

Policy 2770
Page 3

o Any person working at a school function under a contract or written agreement with
  the school system to provide educational or related services to students.

Use of Restrictive Behavioral Interventions:

  • **Time-Out**
    Nothing in this policy is intended to prohibit the use of time-out as defined in this section.

  • **Seclusion**
    Seclusion as defined in this policy is prohibited except for an emergency situation while
    awaiting the arrival of law enforcement personnel as provided for in RSMo 160.263.

  • **Isolation**
    Isolation, as defined in this policy, may only be used by authorized school personnel, as
    defined in this policy:
    o After de-escalating procedures have failed;
    o In an emergency situation as defined in this section; or
    o As specified in a student’s Individualized Education Program (IEP), Section 504
      plan, or other parentally agreed-upon plan to address a student behavior.

    Use of isolation requires all of the following:
    o The student to be monitored by an adult in close proximity who is able to see and
      hear the student at all times. Monitoring shall be face-to-face unless personal
safety of the child or staff member is significantly compromised, in which case technology-supported monitoring may be utilized.

- The total time in isolation is to be reasonably calculated by District personnel on a case-by-case basis based on the age of the child and circumstances, and is not to exceed 40 minutes without a reassessment of the situation and consultation with parents and/or administrative staff, unless otherwise specified in an IEP or Section 504 Plan or other parentally agreed-upon plan to address a student’s behavior.
- The space in which the student is placed should be a normal-sized meeting or classroom commonly found in a school setting.
- The space in which the student is confined is comparable in lighting, ventilation, heating, cooling, and ceiling height to those systems that are in use in other places in the school.
- The space in which the student is placed must be free of objects that could cause harm.

Isolation shall never be used as a form of punishment or for the convenience of school personnel.

**Physical Restraint**

Physical restraint shall only be used in one of the three circumstances below:
- In an emergency situation, as defined in this policy;
- When less restrictive measures have not effectively de-escalated the situation; or
- When otherwise specified in an IEP, Section 504 Plan or other parentally agreed-upon, plan to address a student’s behavior.

Physical restraint shall:
- Only be used by authorized school personnel, as defined in this policy.
- Only be used for as long as necessary to resolve the actual risk of danger or harm that warranted the use of the physical restraint;
- Use no more than the degree of force necessary to protect the student or other persons from imminent bodily injury;
- Not place pressure or weight on the chest, lungs, sternum, diaphragm, back, neck or throat of the student which restricts breathing; and
- Only be done by school personnel trained in the proper use of restraint.

Any school personnel using physical restraint shall:
- Use only methods of restraint in which the person has received district approved training.
- Conduct restraint with at least one additional adult present and in line of sight, unless other school personnel are not immediately available due to the unforeseeable nature of the emergency situation.
Physical restraints should never be used as a form of punishment or for the convenience of school personnel.

- **Mechanical Restraint**
  Mechanical restraint shall only be used as specified in a student’s IEP or Section 504 plan with two exceptions:
  - Vehicle safety restraints shall be used according to state and federal regulations.
  - Mechanical restraints employed by law enforcement officers in school settings should be used in accordance with law enforcement policies and procedures and appropriate professional standards.

- **Chemical Restraint**
  Chemical restraints shall never be used by school personnel.

Aversive interventions that compromise health and safety shall never be used by school personnel.

**Communication and Training**

- **School Personnel Debriefing**
  Following any situation involving the use of seclusion, isolation or restraint, as defined in this policy, a debriefing shall occur as soon as possible but no later than two (2) school days after the emergency situation. The debriefing shall include, at a minimum, a discussion of the events that led to the emergency and why the de-escalation efforts were not effective; any trauma reactions on the part of the student, other students or school personnel; what, if anything, could have been done differently; and an evaluation of the process.

- **Parental Notification**
  Except as otherwise specified in a student’s IEP or Section 504 plan:
  - Following a situation involving the use of seclusion, isolation or restraint the parent or guardian of the student shall be notified through verbal or electronic means of the incident as soon as possible, but no later than the end of the day of the incident.
  - The parent or guardian shall receive a written report of the emergency situation within five (5) school days of the incident. The written incident report shall include all of the following:
    - Date, time of day, location, duration, and description of the incident and de-escalation interventions.
    - Event(s) that led up to the incident.
    - Nature and extent of any injury to the student.
    - Name of a school employee the parent or guardian can contact regarding the incident, and contact information for that employee.
Staff Training
School districts shall ensure that all school personnel are trained annually regarding the policy and procedures involving the use of seclusion, isolation and restraint.

Students with Disabilities
The foregoing policy applies to all students. However, if the IEP team determines that a form of restraint or isolation or aversive behavior intervention may be appropriate in certain identified and limited situations, the team may set forth the conditions and procedures in the IEP or Section 504 plan. Any use of restraint, isolation or aversive behavior interventions must be limited to what is set forth in the IEP or Section 504 plan. Before adding the use of restraint, isolation or aversive behavior interventions to an IEP or Section 504 plan, the student must have undergone appropriate assessments to include, but not limited to, a formal functional behavior assessment and a positive behavior intervention plan must be developed, which indicates a plan to eliminate the use of the restraint, isolation or aversive behavior intervention over time.

Reports on Use of Seclusion, Isolation, Restraint or Aversive Behavior Interventions
Districts shall maintain records documenting the use of seclusion, isolation, restraint and aversive behavior interventions showing each of the following: when, reason for use, duration, names of school personnel involved, whether students or school personnel were injured, name and age of the student, whether the student has an IEP, Behavior Intervention Plan (BIP) or other personal safety plan, when the parents were notified, if the student was disciplined, and any other documentation required by federal or state law.

Applicability of this Policy
This policy applies to all district school personnel. School personnel assigned to programs not located on district premises (hospitals, detention centers, juvenile facilities, and mental health facilities) shall follow the policy and procedure of the facility/program where they work.

STUDENTS

Student Welfare

Student Suicide Awareness

This policy and the accompanying regulation reflects the District’s commitment to maintaining a safe environment to protect the health, safety and welfare of students, and to safeguard against the threat or attempted suicide of any student. Therefore, to further the safety and welfare of students, the District will educate District employees and students on the actions and resources necessary to prevent suicide and to promote mutual wellbeing. This policy will go into effect no later than July 1, 2018.
STUDENTS

Student Services

Guidance and Counseling Services

The District is committed fully to implement a guidance and counseling program that supports the academic, career, and personal/social development of all students, leading District students to successful transitions into post-secondary education and into the workforce. The District’s guidance and counseling program is implemented with the services of fully certified school counselors supported by teachers, administrators, parents and students. The District guidance and counseling program is designed and implemented in a manner to be consistent with the standards of the Missouri Comprehensive Guidance and Counseling Program.

The content of the District’s program, consistent with the Missouri Comprehensive Guidance and Counseling Program, is divided into three broad areas as follows:

Academic Development (ACAD)

1. Students will apply skills needed for achievement in school, both cognitive and affective.
2. Students will utilize skills necessary to successfully transition between educational levels.
3. Individual student learning plans will be developed and monitored throughout the students’ District learning experience.

Career Development

1. Students will achieve life career goals through the consistent application of career exploration and planning skills.
2. Students will identify and locate information relevant to the “World of Work” and post-secondary training/education.
3. Students will achieve on-the-job success through the application of employment readiness skills.

Personal/Social Development

1. Students will achieve an understanding of themselves as individuals and as members of diverse local and global communities.
2. Students will interact with others in ways that manifest respect for individual and group differences.
3. Students will learn to apply personal safety skills and coping strategies.

**Identification of Critical Workforce Needs and Shortages**

1. Students will be given workforce needs and shortages information that will support students’ career pathway decisions prepared by the State Board of Education and the Department of Economic Development by November 1 of each school year.

2. Information received through collaboration between the State Board and the Department of Economic Development will be disseminated to students by November 1 of each school year.

STUDENTS

Policy 2812

Student Services

Identification of At-Risk Students

The District is committed to identifying students who are at-risk of not being ready for college-level work or not being ready for employment in entry-level career positions. It is essential that such identification occur early enough that our schools can intervene with academic counseling, career counseling, and other intervention services to enhance a student’s readiness for post high school academic or employment opportunities.

Identification

Consistent with this District’s commitment, at-risk students will be identified by at least their ninth grade year, including students who transfer into the District during ninth grade. In order to identify such at-risk students, District staff will utilize the following criteria:

1. Student performance in Mathematics and English on the eighth grade Missouri Assessment Program (MAP) tests.

2. The District will consider comparable statewide assessment performance for students transferring into ninth grade from outside of Missouri.

3. The District’s reported rate of students taking remedial courses in basic academic subjects of English, Mathematics, and Reading during their initial year of college. In assessing this data, the District will rely on data submitted by the Department of Higher Education pursuant to § 173.750 RSMo.

4. The student’s attendance rates.

While the above at-risk identifiers are mandatory, the District may consider additional criteria including, but not limited to, review of discipline record; performance more than one grade level below in Reading and/or Math; core subject middle school grades; academic assessment results; contents of Section 504 Plan; ACE score (Adverse Childhood Experience) of 5 or more or other relevant identifiers.

Academic and Career Counseling

When at-risk students are identified, the District will initiate academic and/or career counseling as soon as is practicable to enhance at-risk students’ opportunity to graduate on-time, and to enhance their college and/or career readiness.
This policy may be appropriately waived for any student with a disability upon the recommendation of the student’s Individualized Education Program (IEP) team.

STUDENTS
Policy 2815

Student Services

Contact and Involvement with Outside Agencies

The counseling staff, in consultation with other staff members, is responsible for reviewing students' academic progress as well as personal/social concerns. Where appropriate, the District will make contact with and/or put students and their parents/guardians in contact with outside agencies or professional resources. Where appropriate, the District will cooperate and assist other agencies or professional resources that become involved with students. Student information will not be provided to outside agencies or professional resources until the student's parents/guardians or the eligible student has signed a release of information form. Except as required by law, including but not limited to the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973, the cost of any services provided by the outside agency or professional resource is the sole responsibility of individual parents/guardians or eligible student.
STUDENTS

Policy 2820

Student Services

Psychological Testing of Students

Psychological tests administered to students by qualified District personnel or appropriate diagnostic agencies will ensure quality psychological services in the District, and will protect the educational rights, dignity and privacy of students and parents/guardians.

Psychological evaluations will be made only after informed and written consent of the student's parent/guardian is obtained. A conference will be held with the parent/guardian to review all test results and the student's specific educational needs in the educational program. Psychological data is only one of several criteria for determining any change in a student's educational program. Psychological data older than three years shall not be used as the basis for prescriptive teaching or placement.

All psychological services provided by the District or agencies contracted by the District will be in accordance with state and federal statutes and regulations concerning the privacy of student records and use of psychological services.

STUDENTS

Policy 2825

ACT Administration

In two circumstances, students taking the ACT assessment will have the option to take the assessment in its regular configuration or the ACT Work Keys assessment. Students opting to take the ACT Work Keys assessment will do so within three (3) months before administration of the ACT assessment.

These assessment options will be available:

1. In any school year in which DESE directs a state-funded census administration of the ACT to any group of District students.

2. In any school year in which the District directs a District-funded administration to any group of District students.

STUDENTS
Policy 2830

Student Services
Health Services

The Board of Education believes that in order to provide for the safety and well being of its students, it is necessary to implement and maintain a District-wide student health services program. The health service staff will be responsible to their building principal and may also be responsible to a designated District administrator.

The District will be responsible for providing first aid or emergency treatment for students in cases of sudden illness or injury. Where necessary, and with notice to the parent/guardian, emergency health services will be secured. The parent/guardian is responsible for the cost of their child's medical treatment.

STUDENTS
Policy 2840

Student Services - Health
Student Insurance Program

The Board of Education encourages all parents/guardians to provide accident insurance for their children.

Participation in any group plan is optional and arrangements for participation are the responsibility of the parents/guardians or students. However, all students are required to have insurance coverage before they are allowed to practice or compete in interscholastic athletics, cheerleading, pompon squads and similar groups.

STUDENTS
Policy 2850
(Regulation 2850)

Student Services
Inoculations of Students

All students attending District schools are required to be in compliance with state programs mandating immunization against specific diseases. Failure to comply with District immunization requirements will result in exclusion from school until proof of compliance is provided. Homeless children will be granted a temporary twenty-four (24) hour grace period within which to submit proof of compliance.

The Superintendent shall institute procedures for the maintenance of health records, which are to show the immunization status of every student enrolled or attending in the District, and for the completion of all necessary reports in accordance with guidelines prepared by the Department of Social Services-Missouri Division of Health.
STUDENTS

Student Services
Students with Communicable Diseases

A student shall not attend classes or other school-sponsored activities, if the student (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is liable to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the student:

1. No longer has the disease.

2. Is not in the contagious or infectious stage of an acute disease.

3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

School officials may require any child suspected of having a contagious or infectious disease to be examined by a physician and may exclude the child from school, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

A student who has a chronic infectious disease, and who is permitted to attend school, may be required to do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school. A student who has a chronic infectious disease and who is not permitted to attend school or participate in school activities will be provided instruction in an alternative educational setting in accordance with District policy.

Students with acute or chronic contagious or infectious diseases and their families have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such students will be informed. Willful or negligent disclosure of confidential information about a student’s medical condition by staff members will be cause for disciplinary action.

The District will implement reporting and disease outbreak control measures in accordance with the provisions of Missouri Department of Health publication PACH-16, “Prevention and Control of Communicable Diseases: A Guide for School Administrators, Nurses, Teachers and Day Care Operators,” a copy of which shall be on file in the office of the Supervisor of Health Services and in the office of each school nurse.
STUDENTS
Policy 2870
(Regulation 2870)

Student Services
Administering Medicines To Students

It shall be the policy of the Board of Education that the giving of medicine to students during school hours be discouraged and restricted to medication that cannot be given on an alternative schedule. The Board of Education recognizes that some students may require medication for chronic or short-term illness/injury during the school day to enable them to remain in school and participate in their education. Employees providing routine first aid according to District procedures will be immune from liability or disciplinary action. Similarly, trained employees will be immune from civil liability for administering cardiopulmonary resuscitation and other lifesaving methods in good faith and according to standard medical practices. The Board of Education also recognizes that the administration of medication may be required under Section 504 of the Rehabilitation Act of 1973 and/or the Individuals with Disabilities Education Act to provide a free appropriate public education for identified as disabled under those laws.

STUDENTS
Policy 2871

Student Services
Medical Marijuana

The Board strives to honor families’ private medical decisions while ensuring a learning environment free of disruption. To that goal, the District maintains a strict prohibition against the possession, use, sale and presence under the influence of prohibited substances, having adopted a Drug Free School Policy (Policy 2641 – Drug Free Schools) as well as a prohibition against Student Use of Tobacco, Alcohol and Drugs (Policy 2640 - Student Use of Tobacco, Alcohol and Drugs). The purpose of these policies and others is not primarily punitive to catch offenders, rather it is designed to provide a safe learning environment and to serve as a deterrence to drug use.

The State of Missouri has adopted a limited authorization of medical marijuana, as defined by state law and all applicable regulations (hereinafter “medical marijuana” or “drug”). Qualified individual students and employees are permitted the use of medical marijuana. The law does not authorize the use of medical marijuana on school premises, nor does it require or permit district employees to administer the drug to students.

Overall, the District restricts the administration of medications, including medical marijuana, unless administration cannot reasonably be accomplished outside of school hours. Administration of medical marijuana to qualified students shall be in accordance with this policy. Administration of all other prescription and nonprescription medications to students shall be in accordance with applicable law and the Board’s policy concerning the administration of medications to students.
Under this policy, caregivers of qualified users of medical marijuana should administer the drug before or after school hours. Caregivers are advised to administer the drug as early in the morning as possible or after school in order to avoid safety issues at school.

**Administration at School**

In the limited circumstances that a qualified student must receive the drug at school, certain procedures as determined by the District must be followed. Among those procedures, the caregiver must provide the principal with the student’s valid authorization to use medical marijuana and the parent must provide the principal with doctor’s orders confirming that the drug must be administered during the school day. Where the principal is satisfied that all procedural requirements have been met, the principal will provide a private place where the caregiver may administer the drug to a qualified student. Medical marijuana will not be stored at school, but rather must be brought to school by the caregiver. Following administration of the drug, the caregiver must leave school taking with them any remaining drug.

This procedure will be followed on school premises, on school transportation, and at school sponsored activities either within the District or outside the District. Violation of these procedures will result in the revocation of a qualified student’s opportunity to receive the drug at school and disciplinary action.

Caregivers wishing to appeal a building level decision to limit use of medical marijuana at school may appeal the decision to the Superintendent. The Superintendent’s decision will be final.

**Additional Parameters**

This policy conveys no right to any student or to the student’s parents/guardians or other primary caregiver to demand access to any general or particular location on school or district property, a school bus or at a school-sponsored event to administer medical marijuana.

Student possession, use, distribution, sale or being under the influence of marijuana inconsistent with this policy may be considered a violation of Board policy concerning drug and alcohol involvement by students or other Board policy and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable Board policy.

If the federal government indicates that the District’s federal funds are jeopardized by this policy, the Board declares that this policy shall be suspended immediately and that the administration of any form of medical marijuana to qualified students on school property, on a school bus or at a school-sponsored event shall not be permitted.

Administering Opioid Antagonists

NARCAN, also known as naloxone is a medication that can be used to block the effects of opioids. Properly used, it can be a lifesaver in cases of opioid overdose.

The District shall maintain NARCAN or other opioid antagonist at each school in locked, secure locations to be administered to any student or staff member reasonably believed to be having a drug overdose. School nurses and other school personnel expected to provide emergency care in drug overdose situations shall be trained. The school nurse or other trained school personnel may utilize the school’s supply of NARCAN, or similar opioid antagonist to respond to a drug overdose.

The school district will notify the parents/guardians of any student to whom NARCAN or other opioid antagonist has been administered. Parents who choose not to have an opioid antagonist administered to their student(s) must notify the district in writing. However, if their student is reasonably believed to be experiencing a drug overdose, parents will be notified by the school nurse as expeditiously as possible. In such situations, local medical services will be notified.

Student Services
Student Allergy Prevention and Response

The purpose of this policy is to create an organized system for preventing and responding to allergic reactions in accordance with House Bill 922 (2009). This policy is not a guarantee of an allergen-free environment; instead, it is designed to increase awareness, provide education and training, reduce the chance of exposure and outline responses to allergic reactions.
This policy applies to district facilities to which students have access and includes transportation provided by the district. The Board instructs the superintendent or designee to develop procedures to implement this policy.

Identification
An allergic reaction is an immune system response to a substance that itself is not harmful but that the body interprets as being harmful. Allergic reactions range from mild to life-threatening. Each school in the district will attempt to identify students with life-threatening allergies, including food allergies. At enrollment, the person enrolling the student will be asked to provide information on any allergies the student may have.

Prevention
Students with allergies that rise to the level of a disability as defined by law will be accommodated in accordance with district policies and procedures pertaining to the identification and accommodation of students with disabilities. An Individualized Health Plan (IHP), including an Emergency Action Plan (EAP), may be developed for students with allergies that do not rise to the level of a disability.
All staff members are required to follow any 504 Plan or IHP/EAP developed for a student by the district. Staff members who do not follow an existing 504 Plan or IHP/EAP will be disciplined, up to and including termination.

Staff members shall not use air fresheners, oils, candles, incense or other such items intended to add fragrance in any district facilities. This provision will not be construed to prohibit the use of personal care items that contain added fragrance, but the principal may require staff members to refrain from the use of personal care items with added fragrance under particular circumstances.
Staff members are prohibited from using cleaning materials, disinfectants, pesticides or other chemicals except those provided by the district.
The district will not serve any processed foods, including foods sold in vending machines, which are not labeled with a complete list of ingredients. Vended items must include a list of ingredients on the individual package. The food service director will create an ingredient list for all foods provided by the district as part of the district’s nutrition program, including food provided during the school day and in before- and after-school programs. This list will be available upon request.
Prepackaged items used in concessions, fundraisers and classroom activities must include a list of ingredients on the package. If the package does not contain a list of ingredients, the list of ingredients must be available at the location where the package is sold or provided.

Education and Training
All staff members will be annually trained on the causes and symptoms of and responses to allergic
reactions. Training will include instruction on the use of epinephrine premeasured auto-injection devices.
Age-appropriate education on allergies and allergic reactions will be provided to students as such education aligns with state Grade-Level Expectations (GLEs) for health education. Education will include potential causes, information on avoiding allergens, signs and symptoms of allergic reactions and simple steps students can take to keep classmates safe.

Confidentiality
Information about individual students with allergies will be provided to all staff members and others who need to know the information to provide a safe learning environment for the student. Information about individual students with allergies will be shared with students and others who do not have a legitimate educational interest in the information only to the extent authorized by the parent/guardian or as otherwise permitted by law, including the Family Educational Rights and Privacy Act (FERPA).

Response
Response to an allergic reaction shall be in accordance with established procedures, including application of the student’s 504 Plan or IHP/EAP, where applicable. Each building will maintain an adequate supply of epinephrine premeasured auto-injection devices to be administered in accordance with Board policy.
STUDENTS

Policy 2880

Student Services

Student Physical Examination

The Board of Education may require any student to be examined by a physician for the purpose of determining whether the student is afflicted with a contagious or infectious disease or have the liability of transmitting the disease.

The Board may also require certification from a physician indicating a student's fitness to participate in specific educational programs or extra-class activities.

Refusal on the part of parent/guardian to obtain the required examination and to submit the certification indicating freedom from contagious or infectious disease may result in student exclusion from school.

Students may be excused from engaging in required educational activities upon proper certification from a physician advising of student disability.

All costs of physical or other examinations shall be at the expense of students unless State or Federal law specifically mandates the examination to be the responsibility of the school.

Vision Examinations

Beginning July 1, 2008, students enrolling in kindergarten or first grade will be required to receive a vision examination from a state licensed optometrist or physician.

Beginning on July 1, 2008 and continuing through the 2011-12 school year, a trained District nurse or other qualified District employee will conduct eye screening exams for every student prior to the completion of first grade and will again screen before the completion of third grade. If a student fails an eye screening, the District will notify the parent/guardian of the results of the eye screening and will require the student to receive a complete eye exam from an optometrist or physician. Students will be excused from the eye screening examination if a student’s parent/guardian submits a written objection to the exam addressed to the student’s principal.

STUDENTS

Policy 2890

Student Services

Do Not Resuscitate (DNR) Orders

The School District recognizes that some students have progressive medical conditions that may result in the students’ death while present at school or school activities. The District appreciates the difficult medical and emotional decisions that must be made when families choose to limit resuscitative efforts for these students. Accordingly, the administration shall develop procedures for evaluating requests by a parent or guardian that the District honor a Do Not Resuscitate (DNR) order from a licensed physician.
STUDENTS

Activities and Athletics
Student Publications

The Board of Education encourages student production and distribution of publications which can provide opportunities for practical journalistic experience and for the written expression of differing opinions. The Board of Education recognizes that freedom of speech and press bring corresponding responsibilities, therefore, in its inherent authority based on Missouri Public School Law, it designates the school principal as the Board's representative. The principal, through appointment of a faculty advisor, shall provide guidance to students in appropriate methods for preparing and producing publications.

The building principal/designee may delay or stop distribution of any materials proposed for printing or that have been printed which may be reasonably forecast to cause substantial and material disruption or obstruction of any lawful mission, process, or function of the school.

STUDENTS

Activities and Athletics
Interscholastic Activities and Athletics

The District provides opportunities for students to participate in interscholastic activities and athletics. The interscholastic programs should encourage participation by as many students as possible and should be carried on with the best interests of the students as the primary consideration. The programs are expected to be well organized and well conducted and to have a positive influence on the students and the community.

Participation in interscholastic and extracurricular activities is a privilege and not a right. Interscholastic competition may be withheld from any student as a condition of discipline. Furthermore, all policies that apply to the regular school day apply also to interscholastic competition. Coaches and sponsors may establish policies for their groups in addition to those set out by the Missouri State High School Activities Association.

Hazing

Student hazing is inconsistent with the educational goals of the district and poses a significant risk to the physical and mental welfare of district students. Hazing of students, on or off district property, is prohibited and may result in suspension or expulsion from school and from activity/athletic participation.
STUDENTS

Activities and Athletics

Participation by Non-Traditional Students

Should the District elect to permit non-traditional students to participate in interscholastic activities, such students must qualify as bonafide students under MSHSAA regulations in order to participate in such activities.

Non-Traditional students may be considered bonafide under MSHSAA regulations under any of the following options:

Option 1 – Transcripted Credits

1. The student must be enrolled in a District high school although some courses/credits are taken off-campus, i.e. virtual, post-secondary, work study, etc; and

2. All credits attempted must appear on the student’s high school transcript; and

3. All classes must be completed by the high school’s close of semester in order to be considered counted toward activity eligibility.

Option 2 – Seat Time plus Non-Transcripted Credits

1. The student must be enrolled in a District High School and take a minimum of two (2) credit bearing seat time classes for a minimum of 1.0 units of credit at the high school; and

2. High School Administration must confirm after a full academic review that the student is further enrolled in courses outside of the high school, which bring the student up to full MSHSAA mandated credit requirements of 80%. The High School Administration will develop and submit to the Superintendent a written procedure to determine approval of outside courses/credits; as well as the procedures to determine success/credit confirmation for academic eligibility for the current and following semester. It is not necessary that such confirmed credits be placed on the student’s transcript.

3. All classes must be completed by the high school’s end of semester in order to be considered toward activity eligibility.
Change of Enrollment Status

Any student whose enrollment status changes from being a non-bonafide activity eligible student to a bonafide activity eligible student will be considered a transfer student. As a transfer student, the student would be activity ineligible until a transfer of eligibility form is filed and an eligibility ruling rendered.

October 2017, Copyright © 2017 Missouri Consultants for Education, LLC
STUDENTS Activities and Athletics
Concussions – Brain Injury

Any District athlete suspected of sustaining a concussion or brain injury must be removed from practice and competition immediately and may not participate in contact athletic practice or competition for at least twenty-four (24) hours. Athletes suspected of sustaining concussion or brain injury will not be permitted to return to contact practice or competition until being evaluated by a licensed health care provider trained in the evaluation and management of concussions and receiving a written clearance from the provider to return to competition. (See Form 2930 - MSHSAA Concussion Return to Play Form). Information about concussions obtained from MSHSAA (Form 2930.2) or similar materials will be made available to all student athletes and to their parents/guardians.

STUDENTS Activities and Athletics
Extracurricular Recognition

A. The high school will place a banner in the gymnasium for above district awards. District and Conference awards are represented by single banners. Individual students who place at the state level in athletics will have their name, activity and year obtained added to the banner at the end of each year; this policy will be retroactive. A student who achieves the number one state recognition shall receive an individual banner.

B. If a student achieves at a high enough level or for multiple years, an individual memorial (shadow box) may be created and displayed in the high school. This will be recommended by the high school principal and approved by the board of education.

C. The retirement of a jersey/player’s number is a rare event and will be recommended by the high school principal and approved by the board of education. The boys’ basketball number 22 and 30 and girls’ number 15 are retired in the high school and middle. These numbers will not be issued again; students currently wearing them will be allowed to do so.
