

School Nursing Practice Framework™

Supporting Students to be Healthy, Safe and Ready to Learn

Care Coordination

- Provide direct care for emergent, episodic, and chronic mental and physical health needs.
- Connect student and family to available resources.
- Collaborate with families, school community, mental health team (including school counselors, social workers, and psychologists), and medical home.
- Develop and implement plans of care.
- Foster developmentally appropriate independence and self-advocacy.
- Provide evidence-based health counseling.
- Facilitate continuity of care with family during transitions.

Leadership

- Direct health services in school, district, or state.
- Interpret school health information and educate students, families, school staff, and policymakers.
- Advocate for district or state policies, procedures, programs, and services that promote health, reduce risk, improve equitable access, and support culturally appropriate care.
- Engage in and influence decision-making within education and health systems.
- Participate in development and coordinate implementation of school emergency or disaster plans.
- Champion health and academic equity.
- Share expertise through mentorship/preceptorship.
- Practice and model self-care.

Quality Improvement

- Participate in data collection for local, state, and national standardized data sets and initiatives.
- Transform practice and make decisions using data, technology, and standardized documentation.
- Use data to identify individual and population level student needs, monitor student health and academic outcomes, and communicate outcomes.
- Engage in ongoing evaluation, performance appraisal, goal setting, and learning to professionalize practice.
- Identify questions in practice that may be resolved through research and evidence-based practice processes.

Community/Public Health

- Provide culturally sensitive, inclusive, holistic care.
- Conduct health screenings, surveillance, outreach, and immunization compliance activities.
- Collaborate with community partners to develop and implement plans that address the needs of school communities and diverse student populations.
- Teach health promotion, health literacy, and disease prevention.
- Provide health expertise in key roles in school, work, and community committees/councils/coalitions.
- Assess school and community for social and environmental determinants of health.

Standards of Practice

- Ensure practice consistent with the scope and standards of school nursing practice, health and education laws (consider the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, Nurse Practice Act, state laws regarding school nursing practice and delegation), federal/state/local policies and regulations, and NASN position statements and code of ethics.
- Employ clinical judgment and critical thinking outlined in nursing process and prioritization.
- Integrate evidence and best/promising practices (consider multi-tiered systems of support, clinical practice guidelines).
- Safeguard privacy of students and data (consider Health Insurance Portability & Accountability Act, Family Educational Rights and Privacy Act).
